Financial Accounting J. David Spiceland 2010-12 David Spiceland, Wayne Thomas and Don Herrmann have developed a unique text based on over 50 collective years of experience in the classroom. They've brought together best practices like highlighting Common Mistakes, offering frequent Let's Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style. The new 2nd edition of Financial Accounting, Spiceland, Thomas, Herrmann, has been developed with feedback from over 330 reviewers and focus group participants from across the country. The following list of changes and improvements is a testament to the many hours that reviewers spent analyzing the 1st edition, helping make Financial Accounting, 2nd edition, the best book of its kind.

Accounting Information Systems Leslie Turner 2020-01-02 Accounting Information Systems provides a comprehensive knowledgebase of the systems that generate, evaluate, summarize, and report accounting information. Balancing technical concepts and student comprehension, this textbook introduces only the most-necessary technology in a clear and accessible style. The text focuses on business processes and accounting and IT controls, and includes discussion of relevant aspects of ethics and corporate governance. Relatable real-world examples and abundant end-of-chapter resources reinforce Accounting Information Systems (AIS) concepts and their use in day-to-day operation. Now in its fourth edition, this popular textbook explains IT controls using the AICPA Trust Services Principles framework—a comprehensive yet easy-to-understand framework of IT controls—and allows for incorporating hands-on learning to complement theoretical concepts. A full set of pedagogical features enables students to easily comprehend the material, understand data flow diagrams and document flowcharts, discuss case studies and examples, and successfully answer end-of-chapter questions. The book's focus on ease of use, and its straightforward presentation of business processes and related controls, make it an ideal primary text for business or accounting students in AIS courses.

Accounting Instructor's Resource Kit Cunningham 1999-07 Accounting: Information for Business Decisions offers an integrated approach to teaching managerial and financial accounting course topics for the Introductory or Principles of Accounting course. This new text, written by an experienced author team, is designed to help students understand how to use both managerial and financial accounting information to make decisions. Class-tested for three years across the United States, its student-friendly approach has already earned it rave reviews. The text provides an introduction to business in Chapter 1 and is the only introductory accounting book to have an

entire chapter (Chapter 2) devoted to creative and critical thinking. A non-technical approach makes learning accounting accessible for majors and non-majors, focuses students on using accounting information for decision making, and conforms with AECC guidelines for teaching accounting. A full-chapter length appendix on the accounting cycle (debits/credits) allows instructors to implement this portion of the course anywhere they desire.
