**By the Spirit of the Sun** Anne Givaudan 2020-05-07 Many sources regularly refer to a Master of wisdom who was reincarnated in the Middle East towards the beginning of the sixties. Some go as far as saying it was Jesus in person. Answering a call, Anne Givaudan and Daniel Meurois undertook a journey to Syria. There, they were immediately contacted by a Being of Light in whom they recognized both an impressive force and gentleness which left them in no doubt... Their story begins in the heart of Damascus, but this quickly goes backstage when the spotlight is focused on the teaching they receive. Testimony of an amazing experience, the book is like a guide for each one of us to shake off the ego's tenacious hold and construct the firmer foundations of a new consciousness. Of burning topicality, simply written without indulgence, "By the Spirit of the Sun" addresses all those who, as seekers of Peace and Truth, no longer want to "spend their time" but act.

**Journeys Out of the Body** Robert A. Monroe 2014-11-12 The definitive work on the extraordinary phenomenon of out-

of-body experiences, by the founder of the internationally known Monroe Institute. Robert Monroe, a Virginia businessman, began to have experiences that drastically altered his life. Unpredictably, and without his willing it, Monroe found himself leaving his physical body to travel via a "second body" to locales far removed from the physical and spiritual realities of his life. He was inhabiting a place unbound by time or death. Praise for Journeys Out of the Body "Monroe's account of his travels, Journeys Out of the Body, jam-packed with parasitic goblins and dead humans, astral sex, scary trips into mind-boggling other dimensions, and practical tips on how to get out of your body, all told with wry humor, quickly became a cult sensation with its publication in 1971, and has been through many printings. Whatever their 'real' explanation, Monroe's trips made for splendid reading." -Michael Hutchinson, author of Megabrain "Robert Monroe's experiences are probably the most intriguing of any person's of our time, with the possible exception of Carlos Castaneda's." -Joseph Chilton Pierce, author of Magical Child "This book is by a person who's clearly a sensible man and who's trying to tell it like it is. No ego

trips. Just a solid citizen who's been 'out' a thousand times now and wants to pass his experiences to others."

**Adventures in the Afterlife** William Buhlman 2013-06-16  
Adventures in the Afterlife is a powerful journey of spiritual awakening; a bold quest for answers and enlightenment. The old assumptions of heaven are confronted and an expansive new vision of our continuing life is presented. After being diagnosed with cancer, William Buhlman, author of Adventures Beyond the Body, pursued answers to the mysteries of our existence after death. Confronting his mortality, he experienced profound insights into what lies beyond our physical body. Our journey into the next life is the basis for Adventures in the Afterlife. The author chronicles his out-of-body experiences and lucid dreams through the eyes of a fictional character, Frank Brooks. The insights are sometimes surprising, but a clear message is always apparent; we are powerful, spiritual beings and we shape our reality now and in the future. The purpose of this book is to prepare us for the many thought responsive environments we will experience. William Buhlman teaches and lectures worldwide on the subjects of out-of-body experiences and spiritual empowerment. Visit the author at [www.astralinfo.org](http://www.astralinfo.org).

**ASTROSCIAMANESIMO. Il viaggio nel Sacro Cerchio. Libro Due** Franco Santoro 2021-06-17 Nel primo libro, Astrosciamanesimo: la via dell'universo interiore, Franco Santoro presentò a migliaia di lettori in tutto il mondo un sistema innovativo per espandere la percezione umana, integrando i principi base dello

sciamanesimo con l'astrologia esperienziale. Il riscontro che ne è derivato ha dimostrato che per molti individui questo sistema funziona e che in tanti desiderano proseguire il cammino intrapreso. In questo secondo volume, Franco ti invita a unirti a lui in un'esplorazione dello zodiaco inteso come Sacro Cerchio, guidandoti capitolo per capitolo in un sorprendente viaggio attraverso ciascuno dei dodici Settori e delle quattro Direzioni. Frutto di ricerche minuziose, questo secondo libro copre argomenti quali: segni, case, pianeti astrologici e relative connessioni sciamaniche; corrispondenze astrologiche; strumenti di guarigione; rapporti di viaggi sciamanici e molto altro ancora. Confidiamo che i lettori di lunga data, così come quelli esordienti, si lasceranno affascinare dal loro viaggio attraverso lo zodiaco con Franco. Un dolce rilascio dell'illusione della separazione e un graduale risveglio della propria natura luminosa attendono quanti sono pronti ad aprirsi alle idee contenute in questo libro. **The Astral Body and Other Astral Phenomena** A. E. Powell 2018-12-05 THE purpose of this book is to present to the student of Theosophy a condensed synthesis of the information at present (1926) available concerning the Astral Body of man, together with a description and explanation of the astral world and its phenomena. The book is thus a natural sequel of The Etheric Double and Allied Phenomena published in 1925. As in the case of The Etheric Double, the compiler has consolidated the information obtained from a large number of books, a list of which is given, arranging the material, which covers a vast field and is exceedingly complex, as methodically as lay within his power. It is hoped that by this means present and future students of the subject will be saved much labour and research, being able not only to find the information they require presented in a comparatively small compass, but also, with the help of

the marginal references, to refer, should they so desire, to the original sources of information. In order that the book may fulfil its purpose by being kept within reasonable dimensions, the general plan followed has been to expound the principles under-lying astral phenomena, omitting particular examples or instances. Lecturers and others who wish specific illustrations of the principles enunciated, will find the marginal references useful as a clue to the places where the examples they seek may be found.—A. E. Piccolo manuale per viaggiare all'avventura Nicola Dorin 2012-07-01 Il mio desiderio è darvi consigli su come affrontare meglio un viaggio all'Avventura. Il fatto è che spessoci muoviamo durante le nostre agognatissime (e a volte molto costose) vacanze a nessuno piace trovarsi a dover affrontare situazioni poco piacevoli ed impreviste: oltre all'Avventura, ci si vuole anche divertire! E parecchio! Quindi se si può evitare di avere problemi perché si sa fare una valigia meno pesante portando la stessa quantità di roba, vale la pena farlo! Vi consiglierò dove tenere i vostri documenti e i vostri soldi, come scegliere con chi e come viaggiare attraverso il paese che volete visitare, ecc... Vi dirò anche come comportarvi in alcune situazioni: tra le popolazioni autoctone, con gli animali ecc..., e come affrontare la paura, giusta ma eccessiva, che spesso si ha al pensiero di campeggiare in Africa o in altri paesi considerati selvaggi... sapete, tipo in mezzo ad insetti, LEONI e altre bestiole carine carine...Non mancheranno alcuni racconti da prendere ad esempio...

*Sciamanismo* Tom Cowan 2016-02-01 Lo sciamanismo si inserisce in una visione della vita che considera l'uomo come parte di una rete di rapporti con l'ambiente. Queste relazioni gli consentono di prendere dalla natura, ma gli impongono anche di restituire e, soprattutto, gli vietano di distruggerla. Se questo era importante per le culture primitive, che avevano un impatto ben limitato sull'ambiente, per noi uomini moderni è addirittura vitale.

a territory of both matter and imagination--through the lens of the environmental humanities. The contributors offer a wide spectrum of approaches--including ecocriticism, film studies, environmental history and sociology, eco-art, and animal and landscape studies--to move past cliché and reimagine Italy as a hybrid, plural, eloquent place. Among the topics investigated are post-seismic rubble and the stratifying geosocial layers of the Anthropocene, the landscape connections in the work of writers such as Calvino and Buzzati, the contaminated fields of the ecomafia's trafficking, Slow Food's gastronomy of liberation, poetic birds and historic forests, resident parasites, and nonhuman creatures. At a time when the tension between the local and the global requires that we reconsider our multiple roots and porous place-identities, Italy and the Environmental Humanities builds a creative critical discourse and offers a series of new voices that will enrich not just nationally oriented discussions, but the entire debate on environmental culture.
