The Man Who Believed He Was King of France Tommaso di Carpegna Falconieri 2009-05-15 Replete with shady merchants, scoundrels, hungry mercenaries, scheming nobles, and maneuvering cardinals, *The Man Who Believed He Was King of France* proves the adage that truth is often stranger than fiction—or at least as entertaining. The setting of this improbable but beguiling tale is 1354 and the Hundred Years' War being waged for control of France. Seeing an opportunity for political and material gain, the demagogic dictator of Rome tells Giannino di Guccio that he is in fact the lost heir to Louis X, allegedly switched at birth with the son of a Tuscan merchant. Once convinced of his birthright, Giannino claims for himself the name Jean I, king of France, and sets out on a brave—if ultimately ruinous—quest that leads him across Europe to prove his identity. With the skill of a crime scene detective, Tommaso di Carpegna Falconieri digs up evidence in the historical record to follow the story of a life so incredible that it was long considered a literary invention of the Italian Renaissance. From Italy to Hungary, then through Germany and France, the would-be king's unique combination of guile and earnestness seems to command the aid of lords and soldiers, the indulgence of inn-keepers and merchants, and the collusion of priests and rogues along the way. The apparent absurdity of the tale allows Carpegna Falconieri to analyze late-medieval society, exploring questions of essence and appearance, being and belief, at a time when the divine right of kings confronted the rise of mercantile culture. Giannino's life represents a moment in which truth, lies, history, and memory combine to make us wonder where reality leaves off and fiction begins.

Money and the Middle Ages Jacques Le Goff 2012-10-15 Jacques Le Goff sets out in this book to explain the role of money, or rather of the various types of money, in the economy, life and mentalities of the Middle Ages. He seeks also to explain how, in a society dominated by religion, the Church viewed money, and how it taught Christians what attitudes they should adopt towards it and towards the uses to which it could be put. He shows that, although money played an important role in the rise of towns and trade and in state formation, there was no capitalism but only a pre-capitalism in the Middle Ages, even by their end, in the absence of a truly global market. This is why economic development remained slow and limited, in spite of some remarkable success stories. It was a period in which it was as important to give money as it was to earn it. True wealth was not yet the wealth of this world, even though money played an increasingly large role in reality and in mentalities. No similar discussion of this subject, aimed at a wide readership, has previously been published. Written by one of the greatest medievalists, this book will be recognized as a standard work on the topic.

Il tempo continuo della storia Jacques Le Goff

2014-10-02T00:00:00+02:00 La storia è una e continua o dobbiamo necessariamente dividerla in età e periodi? Periodizzare la storia non è mai un atto neutro o innocente. Periodizzare la storia è a sua volta un appassionante tema di storia. L'ultimo libro di un grande maestro. «Né tesi né sintesi, questo libro è il punto d'arrivo di una lunga ricerca: una riflessione sulla storia, sui periodi della storia occidentale, nel corso della quale il Medioevo mi ha accompagnato fin dal 1950. Si tratta quindi di un'opera che porto dentro di me da molto tempo, alimentata da idee che mi stanno a cuore. Scritto in un momento in cui gli effetti quotidiani della globalizzazione stanno diventando sempre più tangibili, questo libro è una cavalcata nel tempo che torna a riflettere sulle diverse maniere di concepire le periodizzazioni storiche: le continuità, le rotture, i modi di pensare la memoria della storia.»

Saint Francis of Assisi Jacques Le Goff 2004 Celebrated for speaking with the birds, for receiving the stigmata and for initiating the Franciscan order, St Francis is one of the most radical and inspirational figures of the medieval Church.

In Search of Sacred Time Jacques Le Goff 2014-02-23 It is impossible to understand the late Middle Ages without grasping the importance of The Golden Legend, the most popular medieval collection of saints' lives. Assembled for clerical use in the thirteenth century by Genoese archbishop Jacobus de Voragine, the book became the medieval equivalent of a best seller. By 1500, there were more copies of it in circulation than there were of the Bible itself. Priests drew on The Golden Legend for their sermons, the faithful used it for devotion and piety, and artists and writers mined it endlessly in their works. In Search of Sacred Time is the first comprehensive history and interpretation of this crucial book. Jacques Le Goff, one of the world's most renowned medievalists, provides a lucid, compelling, and unparalleled account of why and how The Golden Legend exerted such a profound influence on medieval life. In Search of Sacred Time explains how The Golden Legend—an encyclopedic work that followed the course of the liturgical calendar and recounted the life of the saint for each feast day—worked its way into the fabric of medieval life. Le Goff describes how this ambitious book was carefully crafted to give sense and shape to the Christian year, underscoring its meaning and drama through the stories of saints, miracles, and martyrdoms. Ultimately, Le Goff argues, The Golden Legend influenced how medieval Christians perceived the passage of time, Christianizing time itself and reconciling human and divine temporality. Authoritative, eloquent, and original, In Search of Sacred Time is a major reinterpretation of a book that is central to comprehending the medieval imagination.

Constructing the Past Jacques Le Goff 1985-11-29 This book presents a selection of ten significant contributions of essays to French historiography.

Il cielo sceso in terra Jacques Le Goff 2013-05-30 Un'appassionata ricerca delle comuni radici culturali firmata da uno dei medievisti più illustri al mondo e senza alcun dubbio il più famoso. Nel suo *Il cielo sceso in terra* Jacques Le Goff accetta la tesi di quegli storici che considerano non tanto Carlomagno come 'il padre della patria europea', quanto piuttosto il mondo carolingio come una 'falsa partenza', un'Europa abortita. È stato semmai a partire dal X-XI secolo che il continente ha preso forma. Ed eccola, l'Europa della quale Le Goff è innamorato, la 'bella Europa' delle città, delle cattedrali, delle università. Una risposta sensibile, articolata e autorevole a un tema che a ogni piè sospinto riemerge ai tempi nostri: perché il Medioevo, magari malinteso, reinventato e tradito, va tanto di moda? Perché, risponde Le Goff, il Medioevo siamo noi. Franco Cardini, "Il Sole 24 Ore"

The Birth of Purgatory Jacques Le Goff 1986-12-15 Noting that the doctrine of Purgatory does not appear in the Latin theology of the West before the late twelfth century, the author identifies the profound social and intellectual changes which caused its widespread acceptance

Dialogo sulla storia Jean-Pierre Vernant 2017-02-02 Due protagonisti della ricerca, due studiosi di successo che in questo dialogo raccontano la vita negli anni della giovinezza e della ricerca, le vocazioni politiche, l'incontro con straordinari maestri, lo stupore rimasto intatto a distanza di decenni per il fascino d'una strada, quella della ricostruzione del passato, intrapresa quasi per gioco e per fatalità. Franco Cardini Due dei massimi storici della loro generazione, due grandi maestri la cui voce, oggi, merita di essere ascoltata sul ruolo che la conoscenza storica dovrà ricoprire nel futuro. Nella convinzione che se si riuscirà a costruire un'Europa che abbia senso, occorrerà in primo luogo recuperarne l'identità storica. Massimo Firpo, "Il Sole 24 Ore" In questo dialogo due studiosi che hanno rivoluzionato la ricerca storica ripercorrono la loro vita: gli argomenti della propria ricerca, le contraddizioni irrisolte, i modi in cui la storia fa sue le questioni del presente.

Consul of God (Routledge Revivals) Jeffrey Richards 2014-08-01 Gregory the Great, whose reign spanned the years between 590 and 604 A.D., was one of the most remarkable figures of the early medieval Papacy. Aristocrat, administrator, teacher and scholar, he ascended the throne of St Peter at a time of acute crisis for the Roman Church. *Consul of God*, first published in 1980, revises the traditional picture of Pope Gregory. It examines how he organised the central administration of the Papacy and his unremitting war on heresy and schism. Gregory also pioneered a new pastoral tradition in learning, promoted monasticism, and trained the episcopate. Jeffrey Richards demonstrates that Gregory was both a conservative and a pioneer, and just as his reign looked forward to the medieval world it also looked back to a vanishing world of imperial unity. He was thus the last representative of those Roman senators whose fortitude and energy he emulated, earning the epitaph 'Consul of God'.

Heroes and Marvels of the Middle Ages Jacques Le Goff 2020-08-10 *Heroes and Marvels of the Middle Ages* is a history like no other: it is a history of the imagination, presented between two celebrated groups of the period. One group consists of heroes: Charlemagne, El Cid, King Arthur, Orlando, Pope Joan, Melusine, Merlin the Wizard, and also the fox and the unicorn. The other is the miraculous, represented here by three forms of power that dominated medieval society: the cathedral, the castle, and the cloister. Roaming between the boundaries of the natural and the supernatural, between earth and the heavens, the medieval universe is illustrated by a shared iconography, covering a vast geographical span. This imaginative history is also a continuing story, which presents the heroes and marvels of the Middle Ages as the times defined them: venerated, then bequeathed to future centuries where they have continued to live and transform through remembrance of the past, adaptation to the present, and openness to the future.

Must We Divide History Into Periods? Jacques Le Goff 2015-09-08 We have long thought of the Renaissance as a luminous era that marked a decisive break with the past, but the idea of the Renaissance as a distinct period arose only during the nineteenth century. Though the

view of the Middle Ages as a dark age of unreason has softened somewhat, we still locate the advent of modern rationality in the Italian thought and culture of the fifteenth and sixteenth centuries. Jacques Le Goff pleads for a strikingly different view. In this, his last book, he argues persuasively that many of the innovations we associate with the Renaissance have medieval roots, and that many of the most deplorable aspects of medieval society continued to flourish during the Renaissance. We should instead view Western civilization as undergoing several "renaissances" following the fall of Rome, over the course of a long Middle Ages that lasted until the mid-eighteenth century. While it is indeed necessary to divide history into periods, Le Goff maintains, the meaningful continuities of human development only become clear when historians adopt a long perspective. Genuine revolutions—the shifts that signal the end of one period and the beginning of the next—are much rarer than we think.

Il tempo sacro dell'uomo Jacques Le Goff

2014-04-17T00:00:00+02:00 La Legenda aurea è la raccolta delle vite dei santi che, con i suoi racconti e i suoi curiosi aneddoti, ha alimentato per secoli l'immaginario del cristianesimo popolare, diventando il libro più letto dopo la Bibbia. Ma l'opera scritta dal domenicano Iacopo da Varazze alla fine del XIII secolo è anche molto di più. È una vera e propria summa sul tempo. La sua grande originalità sta nell'offrirci una sua concezione complessiva attraverso tre dimensioni del calendario cristiano: il tempo ciclico della liturgia cristiana, il tempo lineare scandito dalla successione delle vite dei santi, il tempo del cammino dell'umanità cristiana fino al giudizio finale. «Il nostro domenicano vuole mostrare come solo il cristianesimo abbia saputo strutturare e sacralizzare il tempo della vita umana; in effetti, il tempo della Legenda aurea non è un tempo astratto, bensì un tempo umano, voluto da Dio e santificato dal cristianesimo».

The Medieval Imagination Jacques Le Goff 1992-12-15 To write this history of the imagination, Le Goff has recreated the mental structures of medieval men and women by analyzing the images of man as microcosm and the Church as mystical body; the symbols of power such as flags and oriflammes; and the contradictory world of dreams, marvels, devils, and wild forests. "Le Goff is one of the most distinguished of the French medieval historians of his generation . . . he has exercised immense influence."—Maurice Keen, *New York Review of Books* "The whole book turns on a fascinating blend of the brutally materialistic and the generously imaginative."—Tom Shippey, *London Review of Books* "The richness, imaginativeness and sheer learning of Le Goff's work . . . demand to be experienced."—M. T. Clanchy, *Times Literary Supplement*

Physiologus 1979 One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. Raymond A. Sokolov, "New York Times Book Review"

L'Europa raccontata da Jacques Le Goff Jacques Le Goff 2015-06-30T00:00:00+02:00 Possiamo educare i più giovani all'Europa e ai suoi valori di pace e multiculturalità? «Scaviamo all'interno dell'Europa. Da ogni periodo della storia noi europei moderni abbiamo ricevuto qualcosa in eredità. Trasformiamoci in archeologi dell'Europa, scavando prima il sottosuolo e poi tra i libri, le iscrizioni, gli archivi, i musei e, sulla superficie, andiamo alla ricerca dei monumenti, delle abitazioni, degli oggetti che testimoniano tecniche e stili di epoche differenti.» Jacques Le Goff ripercorre tappa dopo tappa l'eccitante sfida dell'Europa, il più piccolo dei continenti, che ha conquistato mezzo mondo, ha innescato la miccia di tante rivoluzioni, ha trasformato

il pianeta.

San Francesco d'Assisi Jacques Le Goff

2014-07-28T00:00:00+02:00 Dalla Prefazione:

«Nell'attrattiva che su ogni storico esercita la tentazione di raccontare la vita di un uomo (o di una donna) del passato, di scrivere una biografia che si sforzi di raggiungere la sua verità, Francesco è stato ben presto l'uomo che più di qualunque altro ha suscitato in me il desiderio di farne un oggetto di storia totale, storicamente e umanamente esemplare per il passato e il presente».

Il Medioevo raccontato da Jacques Le Goff Jacques Le Goff 2015-01-01T00:00:00+01:00 «Se studiate il Medioevo vi accorgete che è diverso da ciò che siamo, da ciò che l'Europa è oggi diventata. Avrete come l'impressione di fare un viaggio all'estero. Occorre non dimenticare che gli uomini e le donne di questo periodo sono i nostri antenati, che il Medioevo è stato un momento essenziale del nostro passato, e che quindi un viaggio nel Medioevo potrà darvi il duplice piacere di incontrare insieme l'altro e voi stessi.» Jacques Le Goff racconta alle nuove generazioni che cos'è stata, veramente, 'l'età di mezzo' della storia occidentale, da dove sono sorte le sue leggende, qual era la quotidianità degli uomini e delle donne medievali, e soprattutto perché sia tanto importante per noi, oggi, conoscere da dove veniamo.

Legendary Ireland Eithne Massey 2013-10-01 This beautiful book visits twenty-eight richly atmospheric sites and tells the mythological stories associated with them. Woven into these landscapes are tales of love and betrayal, greed and courage, passion and revenge, featuring the famous characters of Celtic lore, such as Cú Chulainn, the children of Lír and Queen Maeve. The historical and archaeological facts and the folk traditions of each ancient site are explored. Some are famous, such as Tara and Newgrange; others are less well known but equally captivating such as the Béara Peninsula in Cork. In a world where many have lost touch with the land and their past, the legendary Irish landscape still survives and the stories are never quite over as long as there are people to tell them.

Il corpo nel Medioevo Jacques Le Goff

2016-03-04T00:00:00+01:00 «La concezione del corpo, il suo spazio nella società, la sua presenza nell'immaginario e nella realtà hanno subito mutamenti in tutte le società storiche. Dallo sport dell'antichità greco-romana all'ascetismo monastico e allo spirito cavalleresco del Medioevo, dove si ha una trasformazione nel tempo, vi è storia. La storia del corpo nel Medioevo è dunque parte essenziale della sua storia globale.» Allo studio della storia non vi sono ingressi riservati, le sue porte sono aperte a qualsiasi tema. Il corpo è uno di questi, ma con Jacques Le Goff che tratta il corpo nel Medioevo rischi non se ne corrono. Lo studioso traccia il percorso storico essenziale attraverso il quale il Medioevo trasforma la corporeità antica nell'esperienza moderna della fisicità: uno scopo certamente conseguito. Giuseppe Galasso, "Corriere della Sera"

Medieval Callings Jacques Le Goff 1995-12-18 These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings—of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, *Times Literary Supplement* Contributors: Mariateresa Fumagalli Beonio Brocchieri, Franco Cardini, Enrico Castelnuovo, Giovanni Cherubini, Bronislaw Geremek, Aron Ja. Gurevich, Christiane Klapisch-Zuber, Jacques Le Goff, Giovanni Miccoli, Jacques Rossiaud, and André Vauchez.

Historical Atlas of Medieval Music Vera Minazzi 2019-08-31 Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades,

an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

The Ingredients of Love Nicolas Barreau 2012-12-20 The day begins like any other Saturday for beautiful Parisian restaurateur Aurélie Bredin, until she wakes up to find her apartment empty - her boyfriend gone off with another woman. Heartbroken, Aurélie walks the streets of Paris in the rain, finally seeking refuge in a little bookshop in the Ile St. Louis, where she's drawn to a novel titled *The Smiles of Women* by obscure English author Robert Miller. She buys it and takes it home, but when she begins to read she's astonished: *The Smiles of Women* can't possibly be about her restaurant . . . about her. Except, it is. Flattered and curious to know more, Aurélie knows she must get in touch with the reclusive Mr Miller, but it proves to be a daunting task. His French publishers seem determined to keep his identity secret, and while the Editor-in-Chief André Chabanais is happy to give Aurélie his time, he seems mysteriously unwilling to help her find her author. Is Robert Miller really so shy, or is there something that André isn't telling Aurélie?

L'uomo medievale Jacques Le Goff 2014-04-07T00:00:00+02:00 "L'uomo e gli uomini, gli uomini nella società dell'Occidente cristiano, nelle loro principali funzioni (ossia nei tratti essenziali, ma anche nella concretezza del loro status sociale, del loro mestiere, della loro professione), al tempo di un dittico medievale che nella prima faccia mostra il prodigioso sviluppo della Cristianità fra l'anno Mille e il secolo XIII, mentre la seconda rappresenta quel tempo sconvolto, chiamato Basso Medioevo, dove girano vorticosamente insieme un mondo del passato in crisi e il mondo di un nuovo Medioevo, il Rinascimento; infine degli uomini viventi (nelle loro condizioni di vita, con le loro credenze, le loro pratiche): ecco l'oggetto di questo libro." Medieval Prostitution Jacques Rossiaud 1995-12-11 In fifteenth-century France, public prostitution was condoned by all sectors of society. Clerics and municipal officials not only tolerated prostitution, but were often its principal beneficiaries, owning and frequenting brothels quite openly. The explanation of this remarkable state of affairs is just one aspect of Jacques Rossiaud's vivid reconstruction of a part of medieval society that has previously received little attention. Drawing upon extensive research in medieval archives, the author shows that most fifteenth-century Frenchwomen could expect a life of constant subjugation

to male desire. Rape, for instance, was common and considered only a minor crime. He then considers whether public prostitution might paradoxically have been seen by the secular and religious authorities as a means of social control, and of preserving marital stability: the virtue of wives and daughters was best protected by the existence of public brothels, where sexual urges could be satisfied without adultery or rape. Jacques Rossiaud also describes the social background of the prostitutes, brothel-keepers, pimps, and their clientele, providing a vivid overview of the context in which medieval prostitution existed. Medieval Prostitution will be of interest to medieval historians, as well as to students of the history of the family and sexuality.

Women of the Twelfth Century, Eleanor of Aquitaine and Six Others Georges Duby 1997-10-13 This is an engaging account of the lives of high-born women in the Middle Ages, by one of the foremost historians in Europe. Focusing on France in the twelfth century, Duby recreates the image of women that the men of high society made for themselves. Using written evidence from the period - official texts written by men, all intended for public consumption and reading aloud - he tells the story of six very different women. These women - fictional and real, religious and secular - range from famous historical figures such as Eleanor of Aquitaine and Heloise, through Mary Magdalen, whose cult grew throughout the twelfth century, to *Soredamors* and *Fenice*, the heroines of *Cligès*, the romance of *Chrétien de Troyes*. Duby sets all of these women within their historical context, using their personalities to explore the characteristics of female existence during this period. He discusses relations between the sexes, including marriage and different types of love, and shows how women were feared, mistrusted and, sometimes, admired by men. He vividly reconstructs the French nobility's system of values, examining the place assigned to women within this system. He argues that men's attitudes to women began to change in the twelfth century and that women began imperceptibly to extricate themselves from masculine power. This important book - the first of three volumes on women in the Middle Ages - will be of interest to a wide readership.

Stories of Women in the Middle Ages Maria Teresa Brolis 2018-12-03 Between the twelfth and fifteenth centuries in Europe, not all women fit the stereotype of passive housewife and mother. Many led bold and dynamic lives. In this collection of historical portraits, Maria Teresa Brolis tells the fascinating tales of fashion icons, art clients, businesswomen, saints, healers, lovers, and pilgrims - both famous and little known - who challenge conventional understandings of the medieval female experience. Drawing on evidence from literary works and archival documents that include letters, chronicles, trials, testimonials, notary registers, contracts, and wills, Brolis pieces together an intricate overview of sixteen women's lives. With zest and compassion, she describes the mysterious visionary Hildegard of Bingen, the cultured Heloise, the powerful Eleanor of Aquitaine, Saint Clare of Assisi, the rebel Joan of Arc, as well as lesser-known women such as Flora, the penitent moneylender, Bettina the healer, and Belfiore the pilgrim, among others. Following the trajectories and divergences of their lives from wealth to poverty, from conjugal love to the love of community, from the bedroom to life on the streets of Paris, London, Mainz, Rome, and Bergamo, each portrait offers a riveting glimpse into the often complex and surprising world of the medieval woman. Combining the rigour of research with the thrill and empathy of narrative, *Stories of Women in the Middle Ages* is a provocative investigation into the biographies of sixteen incredible medieval heroines.
