Rest Stop Ron Lemco 2011-10-18 Synopsis Rest Stop is a 250 page realistic novel based on real characters I knew while I served my time in prison. It is about the convicts I lived with on a daily basis. The book starts off in prison and gives insight of the living conditions. It tells of the games that are needed in order to survive. It explains the brotherhood that forms between cell mates and the cliques you become part of, not by choice but out of necessity. Following a fight and a stabbing, the four inmates who are held responsible are being transported from a minimum security location to the main prison when they escape. The escape convicts come up with a plan to take over a rest-area on Interstate 15. It was just a few miles from Las Vegas. They figured that the people going to Vegas would have lots of cash on them. Their plan was to rob them and use the money to get out of the country. It is a long way from Oregon State Penitentiary to Las Vegas. A big part of the story takes place on the trip to get to the rest stop, with robbery, murder and rape along the way. The driving force behind the story is the dialog and vivid thought process, not only from the convicts but from the victims. Each chapter gives insight to the mind set and words of the escaped convicts,

along with the Warden, the State Police and the Federal agent who is always just one step behind the inmates. The novel begins with a thrilling, fast paced opening. It holds the excited pace up to an unforgettably tense conclusion. Each chapter ends in a poem I wrote while in prison and coincides with the story. The epilogue leaves room for a sequel for a second book. Ron Lemco PO Box 63 Sumner, WA. 98390 253-2284544 rlemco@aol.com

Financial Capability and Asset Building in Vulnerable Households Margaret Sherraden 2018-04-26 Financial struggles of American families are headline news. In communities across the nation, families feel the pinch of stagnant and sometimes declining incomes. Many have not recovered from the Great Recession, when millions lost their homes and retirement savings. They are bombarded daily with vexing financial decisions: Which bills to pay? Where to cash checks? How to cover an emergency? How to improve a credit report? How to bank online? How to save for the future? Low- and moderate-income families have few places to turn for guidance on financial matters. Not many can afford to pay a financial advisor to help navigate an increasingly complex financial world. They do their best with advice from family and trusted individuals. Social workers, financial counselors, and human services professionals can help. As "first responders," they assist families and help in finding financial support from public and private sources. But these professionals are too often unprepared to address the full range of financial troubles of ordinary working families. Financial Capability and Asset Building in Vulnerable Households prepares social workers, financial counselors, and other human service professionals for financial practice with vulnerable families. Building on more than 20 years of research, the book sets the stage with key concepts, historical antecedents, and current financial challenges of families in America. It provides knowledge and tools to assist families in pressing financial circumstances, and offers a lifespan perspective of financial capability and environmental influences on financial behaviors and actions. Furthermore, the text details practice principles and skills for direct interventions, as well as for designing financial services and policy innovations. It is an essential resource for preparing the next generation of practitioners who can enable

families to achieve economic security and development.
